

Water and WASH Futures - Conference Program

Monday 13th February 2023

0745-0900	Delegate Registration & Welcome Breakfast					
0900-1030	Opening Plenary Welcomes Conversation between Neeta Pokhrel (Asian Development Bank) and Saroj Kumar Jha (World Bank) with Conference Facilitator Clarissa Brocklehurst					
1030-1100	Morning Tea Break					
1100 - 1245	A. Tackling local water security and scarcity A1: Using information to guide water security decisions	B. Climate-resilient WASH in practice B1: Approaches to understanding and assessing climate change and WASH	C. Improving hygiene practices in a climate-stressed and COVID19 world C1: Improving hygiene for the most vulnerable	D. GEDSI - from inclusion to transformation in water management and WASH D1: Addressing vulnerabilities to leave no-one behind	F. Strengthening enabling environments F1: Urban governance processes to support climate resilient water and sanitation	F. Strengthening enabling environments F5: Doing things differently - novel approaches for building climate resilient WASH and WRM
Thematic session 1	P6	P7	P8	P9	P10	P11
Room						
Theme Leaders	Gaetano Romano, Engineers Without Borders, Regina Souter, International WaterCentre, Griffith University, Shona Fitzgerald, World Bank Addressing increasing water scarcity in the Asia Pacific Region Emily Barbour, Australian Water Partnership Responding to water scarcity - policy comparative analysis between Australia and the countries of the Mekong Simon Tilleard, Alluvium The water use efficiency (WUE) in peri-urban and rural water supply systems based on socio and economic (SEC) factors Diana Carolina Callejas Moncaleano, Delft University of Technology Tackling local water security with innovative technologies and approaches. Dulce Soares, Simlie	Jeremy Kohlitz, Institute for Sustainable Futures, UTS; Regina Souter, International WaterCentre, GU; Meredith Hickman, WaterAid Australia Climate resilient urban sanitation: State of the evidence and a collective learning agenda Avni Kumar, Institute for Sustainable Futures, University of Technology Sydney A practical tool to assess the climate resilience of WASH programming Tanvi Oza, WaterAid Australia Ecosystems Based Adaptation support tool for the Pacific Tanika Gulati, Alluvium International Monitoring Climate Resilient WASH services and community resilience: are we ready? Silvia Gaya, UNICEF A framework for assessing the climate resilience of sanitation technologies Ian Cunningham, Institute for Sustainable Futures, University of Technology Sydney	Gabrielle Halcrow, SNV, Hannah Barrowman, Australia Pacific Climate Partnership & Marcus Howard, Consultant Developing synergies for strengthening capacities and learning in WASH behaviour change Maria Tran, Asian Development Bank Improving Hygiene Practices in Hard-to-Reach Tribal Areas in the Backdrop of COVID-19 in Bangladesh Mosleh Sadeque, Integrated Development Foundation (IDF) Strengthening WASH Practices in Yap, Federated States of Micronesia John Guswell, Southern Yap Water Authority Hand hygiene campaigns: reflections from the Solomon and Cook Islands Bronwyn Powell, Asian Development Bank	Bronwyn Powell, International WaterCentre, Griffith University, Manohara Khadka, International Water Management Institute, Alison Baker, Water for Women & Peta Mills, DFAT Factors influencing the inclusion of GEDSI in country plans for WASH in HCF in the South East Asia Region with an Indonesia case study Faustina Gomez, World Health Organization - Regional Office for South East Asia (SEARO) & Indah Deviyanti- World Health Organization, Indonesia Adapting Targeted Sanitation Subsidies for Climate Vulnerable Households Tyler Kozole, International Development Enterprises (IDE) Cambodia Transforming Gender Roles in Khyber Pakhtunkhwa Province Hassan Gelani, International Rescue Committee Leaving no-one behind: Menstrual Health for people with intellectual disabilities Chloe Morrison, World Vision Vanuatu	Geoff Wilson, Asian Development Bank, Simon Tilleard, Alluvium, Sarah Ransom, Australian Water Partnership & Marcus Howard, Consultant World Bank Utility of the Future Program Ma Fiorella Fabella, World Bank Building a viable governance model for peri-urban piped water supply in Papua New Guinea Tim Davis, WaterAid Australia Building Resilient Sanitation Infrastructure to Sea Level Rise Cindy Priadi, University of Indonesia Engaging with urban planning for climate-resilient WASH - Melanesian informal settlements Camari Koto, University of the South Pacific National Framework for Integrated Urban Water Management in Indonesia Ima Setiono, World Bank	Geoff Wilson, Asian Development Bank, Simon Tilleard, Alluvium, Sarah Ransom, Australian Water Partnership & Marcus Howard, Consultant Failing better in the WASH sector Dani Barrington, The University of Western Australia Bringing partnership principles into practice Donna Leigh Holden, Water for Women System strengthening in action: Evaluation of the New Zealand Government Funded Vanuatu Water Sector Partnership Lisa Faerau, GEDSI advisor, Vanuatu Localisation for Transformation Wahyu Triwahyudi, Plan International Australia Investing time during the scoping to build empathy and understanding of communities Mitch Horrocks, Engineers Without Borders Australia
1245 - 1345	Lunch					
1345 - 1530	A. Tackling local water security and scarcity A2: Urban water and sanitation security in the face of climate change	B. Climate-resilient WASH in practice B2: Impacts of climate change on WASH and health	C. Improving hygiene practices in a climate-stressed and COVID19 world C2: Lessons from the COVID Pandemic for a climate resilient future	D. GEDSI - from inclusion to transformation in water management and WASH D2: Inclusion concepts & approaches - leadership and transformation	F. Strengthening enabling environments F2: Governance models to support rural water supply and sanitation	F. Strengthening enabling environments F6: Institutional Reform and Partnerships, Supporting integrated WASH and WRM: Institutions, partnerships and systems
Thematic session 2	P6	P7	P8	P9	P10	P11
Room						
Theme Leaders	Gaetano Romano, Engineers Without Borders, Regina Souter, International WaterCentre, Griffith University, Shona Fitzgerald, World Bank World Bank Water Secure Cities Program Shona Fitzgerald, World Bank Embedding Circularity in Urban Water Resources Management in Rajasthan (India) Nutan Zarapkar, RTI International Direct Potable Reuse to address Climate Change and Water Security Patrick Ty, Metropolitan Waterworks & Sewerage System Regulatory Office (MWSS RO) Every Drop Counts - Story of Colombo City Water Loss Management Kamal Dahanayake, Asian Development Bank	Jeremy Kohlitz, Institute for Sustainable Futures, UTS; Regina Souter, International WaterCentre, GU; Meredith Hickman, WaterAid Australia City Wide Inclusive Sanitation Assessment of Port Vila Mark Ellery, UNICEF Climate change and vector-borne diseases. A case study from Nepal Alexandra Conroy, Asian Development Bank Challenges of water and WASH services in Nepal in a changing climate Santosh Nepal, International Water Management Institute (IWM) Exploring Climate Impacts on rural Sanitation and Hygiene in Burkina Faso Ruhil Iyer, Sanitation Learning Hub, Institute of Development Studies Tourism, water scarcity and inclusive WASH in Eastern Indonesia Anindrya Nastiti, Institut Teknologi Bandung	Gabrielle Halcrow, SNV, Hannah Barrowman, Australia Pacific Climate Partnership & Marcus Howard, Consultant Changing behaviours at scale in a pandemic in Indonesia Saniya Niska, SNV Netherlands Development Organisation, Indonesia Sustaining hygiene behavior change during COVID-19 in garment factories of Cambodia Sreyneang Teu, WaterAid Cambodia Handwashing Stations in Cambodia: A response to COVID-19 Safe Hygiene Practices Jack Nugent, Engineers Without Borders Australia Crowding and WASH infrastructure affect COVID risks in remote Indigenous communities Nina Lansbury, The University of Queensland	Bronwyn Powell, International WaterCentre, Griffith University, Manohara Khadka, International Water Management Institute, Alison Baker, Water for Women & Peta Mills, DFAT Partnerships for Transformative Change: Guidance for WASH and Rights Holder Organisations Isobel Davis, Institute for Sustainable Futures, University of Technology Sydney Strengthening Women's Engagement in the Sanitation Value Chain in Ghana Sherfatu Mustapha, International Development Enterprises (IDE) Women's leadership in water management and WASH: experiences from Cambodia Dourn Ton, WaterAid Cambodia Incorporating traditional cultural knowledge into water management in the Solomon Islands Samantha Kies-Ryan, Earth Water People Transformative leadership for inclusive, resilient WASH: experiences and insights from Bhutan Uygen Wangchuk, SNV Netherlands Development Organisation/Bhutan Intersecting complexities: an approach for WASH programs in challenging contexts Leandra Rhodes-Dicker, RMIT University	Geoff Wilson, Asian Development Bank, Simon Tilleard, Alluvium, Sarah Ransom, Australian Water Partnership & Marcus Howard, Consultant Experiences with regulation of rural water supply and its role in formalizing service delivery Harold Lockwood, Aguaconsult Federalizing Resilient WASH Services in Nepal: Intervention Experiences Kamala, K.C., British Embassy Kathmandu Policy context for managing risks of self-supplied water in Indonesia Cindy Rianti Priadi, Universitas Indonesia Backstopping rural water management in Solomon Islands and Fiji Mark Love, International WaterCentre System Strengthening and collaborative approach to achieve drinking water security in parts of Gangetic Plain, Asad Umar, Aga Khan Foundation Towards Climate Resilience Rural Water and Sanitation Services in Indonesia Aisyah Nasution, Ministry of National Development Planning of Indonesia (Bappenas)	Geoff Wilson, Asian Development Bank, Simon Tilleard, Alluvium, Sarah Ransom, Australian Water Partnership & Marcus Howard, Consultant Making the case for Equitable Water Resource Management Antoinette Kome, SNV Netherlands Development Organisation Analysis of Climate-Water Governance for Integrated Water Resources Management and Adaptation to Combat Climate Change in Pakistan Haifz Qasim Yasin, Water Management Department, Government of the Punjab, Pakistan Applying best practice river basin planning in Lao PDR - Opportunities and lessons Georgia Burkin, Alluvium Developing inclusive WASH and Integrated Water Management frameworks for practitioners John Kelleher, Plan International Australia WRM-WASH: A framework towards stronger cooperation Silvia Gaya, UNICEF
1530-1600	Afternoon Tea Break					
1600-1730	Plenary Discussion Panel: Bringing together climate science with local knowledge to improve the climate resilience of water systems					
1730-1900	Poster Reception					

Water and WASH Futures - Conference Program

Tuesday 14th February 2023

0830-10:00	Plenary Discussion Panel					
1000-1030	Morning Tea Break					
1030-1230	A. Tackling local water security and scarcity A3: Linking community water security water cycles and catchments in the Pacific Islands P6 Gaetano Romano, Engineers Without Borders, Regina Souter, International WaterCentre, Griffith University, Shona Fitzgerald, World Bank Why are Solar Water Systems failing in Vanuatu? Jake Ward, Pacific Community (SPC) Are we on track to meet universal safe water access in Vanuatu? Review of the National Implementation Plan Progress in Vanuatu Erickson Sammy, Department of Water Resources, Vanuatu Localising water safety planning: Lessons from Vanuatu and Fiji Mark Love, International WaterCentre Increasing rural drinking water security within Fijian watersheds Jacqueline Thomas, The University of Sydney Photovoice and inter-community dialogue for catchment management in Solomon Islands Samantha Kies-Ryan, Earth, Water, People	B. Climate-resilient WASH in practice B3: Improving the climate-resilience of WASH & water supplies P7 Jeremy Kohlitz, Institute for Sustainable Futures, UTS; Regina Souter, International WaterCentre, GU; Meredith Hickman, WaterAid Australia Strengthening WASH climate resilience in the South East Asia Region Faustina Gomez, World Health Organization - Regional Office for South East Asia (SEARO) Assessing climate resilience status of drinking water schemes in Nepal Moti Poudel, Kathmandu University, Department of Environment Science and Engineering Remote Indigenous communities, climate change and water security: Projections and options for the future Sandra Creamer, The University of Queensland Potable versus preferred: balancing climate resilient water supplies with safely managed drinking water in Australian First Nations communities Cara Beal, Griffith University Planning for uncertain climate risks to community water: Water Security Improvement Planning in Solomon Islands Regina Souter, International WaterCentre Unique water supply challenges on Kiritimati Island Jake Ward, The Pacific Community	C. Improving hygiene practices in a climate-stressed and COVID19 world C3: Lasting change for improved hygiene practices P8 Gabrielle Halcrow, SNV, Hannah Barrowman, Australia Pacific Climate Partnership & Marcus Howard, Consultant Capacity, complexity and sustainability of designing behaviour change at scale Balaji Gopalan, Upward Spiral Behaviour change for promoting safe and equitable child faeces management in Solomon Islands Jamesford Kéboy, Solomon Islands National University A Collaborative Effort to Develop and Implement Behaviour Change Communication Strategy in Indonesia Putri Sortaria Tarigan, SNV Netherlands Development Organisation Sanitation and hygiene promotion and marketing in urban Solomon Islands Tom Rankin, Plan International Australia Leveraging Social Art for improving hygiene practices in a climate-stressed and COVID-19 world Anna Zisa, One Drop Foundation Evaluating WASH programming with a focus on GEDSI and social norms Therese Tam, Univesidade Nacionale Timor Lorosa'e	D. GEDSI - from inclusion to transformation in water management and WASH D3: Translating inclusive guidelines & tools into practice P9 Bronwyn Powell, International WaterCentre, Griffith University, Manohara Khadka, International Water Management Institute, Alison Baker, Water for Women & Peta Mills, DFAT Successful Sanitation: Investigating gender equality in India's National Sanitation Programming Hannah Jayne Robinson, University of Leeds Perceptions of GEDSI-WASH climate resilient practices in post-Covid Fijian resorts Bronwyn Powell, International WaterCentre Making Participatory Design Inclusive: Including diverse residents in water and sanitation infrastructure design Michaela Prescott, Monash University "Building common ground and collective strength" - the application of the feminist participatory action research in water governance in Mekong Kaneka Keo, Mekong Water Governance Program, Oxfam Translating disability inclusive WASH policies into practice: lessons learned from Cambodia Jane Wilbur, London School Hygiene and Tropical Medicine Participatory Platform to Ensure Equitable WASH Provision in Healthcare Facilities in Indonesia Annisa Pramesti Putri, SNV Netherlands Development Organisation Indonesia	E. Mitigating climate change through WASH and WRM E1: Mitigating climate change through WASH and water management P10 Meredith Hickman, WaterAid Australia, Isobel Davis, Consultant & David Hebblethwaite, The Pacific Community (SPC) Balancing adaptation, emissions and public health in sanitation services GuyHoward, University of Bristol Measuring greenhouse gas emissions from onsite sanitation systems in Nepal. Prativa Poudel, Kathmandu University Innovative Solution to Address Water Needs in Islands Clarence Sutharsan, World Vision Centralised Wastewater System Approaches in Urban Environments Tanozsochi Lase, Ministry of Public Works and Housing Republic of Indonesia Integrating WASH in Green and Safe Health Facilities in the Philippines June Philip Ruiz, Philippines Department of Health & Bonifacio Maglibay, World Health Organization	F. Strengthening enabling environments F3: Innovations in finance for water management and WASH P11 Geoff Wilson, Asian Development Bank, Simon Tilleard, Alluvium, Sarah Ransom, Australian Water Partnership & Marcus Howard, Consultant Circular economy and resilience framework for transforming the water sector Diego Rodriguez, World Bank Passing the buck: Fiscal decentralisation in the WASH sector Sokha Mok, WaterAid Cambodia Water Shadow Prices, Assessing the value of Supply Water in Urban Bangladesh Mohammad Alamgir, Water Resources Planning Organization (WARPP) Role of Water Utilities in Climate Adaptation for Communities Anang Muchlis, Ministry of Public Works and Housing Republic of Indonesia Blended Finance and Enabling Environment for WASH in Ghana and Viet Nam Oksana Tkachenko, Lean Finance
1230-1330	Lunch					
1330-1530	A. Tackling local water security and scarcity A4: Community water management in the face of water scarcity P6 Gaetano Romano, Engineers Without Borders, Regina Souter, International WaterCentre, Griffith University, Shona Fitzgerald, World Bank Professionalizing rural water supply management Harold Lockwood, Aguaconsult Designing for motivations in community-based rural water supply Ian Cunningham, University of Technology Sydney Water is everyone's business: Social marketing to motivate water committees and communities Collin Benjamin, Solomon Islands National University WASH facilities at Rural areas tackling climate change effect Zobair Hasan, Development Organisation of the Rural Poor (DORP) Low-cost large-scale rainwater storage for rural Cambodian households - Jumbo Jars Mariny Chheang, Engineers Without Borders Australia	B. Climate-resilient WASH in practice B4: Resilient and equitable sanitation P7 Jeremy Kohlitz, Institute for Sustainable Futures, UTS; Regina Souter, International WaterCentre, GU; Meredith Hickman, WaterAid Australia Bhutan's journey to 100% improved sanitation: insights from a decade of action Raj Kumar Battarai, SNV Netherlands Development Organisation Holistic approaches to improve environmental and public health in informal settlements in Makassar, Indonesia Tri Dow Virgianti, Ministry of National Development Planning of Indonesia (Bappenas) Effectiveness and Use of On-Site Safely Managed Sanitation Solutions in Rural Cambodia Rana Abdel Sattar, International Development Enterprises (IDE) Impact of flooding on rural sanitation infrastructure in Fiji NabeelaNasim, School of Civil Engineering, The University of Sydney Engineering Equitable Sanitation for Challenging Environments: Disability, Gender and Climate in Vanuatu Hamish Clark, Engineers Without Borders Australia Exploring affordable, climate resilient latrines for rural communities in Bangladesh Tyler Kozole, International Development Enterprises (IDE)	C. Improving hygiene practices in a climate-stressed and COVID19 world C4: WASH behaviours in healthcare facilities and schools P8 Gabrielle Halcrow, SNV, Hannah Barrowman, Australia Pacific Climate Partnership & Marcus Howard, Consultant Progressing WASH in healthcare facilities - highlights from Asia-Pacific region Bernice Sarpong, WaterAid Australia WASH in schools in Vanuatu; moving from pilot to national scale Brecht Mommen, UNICEF The full costs of safe WASH in healthcare settings Arantes Isaac Samento, Manufahi Municipal Administration, Government of Timor-Leste Improved hand hygiene for a safer birth Senghort Ret, WaterAid Cambodia Lessons from school-led WASH approaches in Solomon Islands and PNG Tom Rankin, Plan International Australia Climate resilient WASH in Health Care Facilities in the Pacific Tom Rankin, Plan International Australia	D. GEDSI - from inclusion to transformation in water management and WASH D4: Inclusion concepts & approaches - norms and stigma P9 Bronwyn Powell, International WaterCentre, Griffith University, Manohara Khadka, International Water Management Institute, Alison Baker, Water for Women & Peta Mills, DFAT Accelerating Inclusive Sanitation and Hygiene Access through GEDSI STBM Approach in Eastern Indonesia Herie Ferlian & Novika Noerdiyanti, Plan Indonesia Shifting social norms for inclusive, resilient and sustainable behaviour change Jose Mott, Water for Women Inclusive WASH Workforce: guidance on how WASH organisations can become more inclusive Avni Kumar, Institute for Sustainable Futures, University of Technology Sydney Along the Continuum to transformation: Sexual and Gender Minorities in WASH Lana Wolf, Edge Effect Facing GBV during accessing WASH facilities: A study on urban slums of Bangladesh Sheikh Muhammad Tanquzzaman, Plan International Bangladesh Understanding children's experiences of self-wetting (incontinence) in humanitarian contexts Dani Barrington, University of Leeds	D. GEDSI - from inclusion to transformation in water management and WASH D5: Menstrual health and hygiene P10 Bronwyn Powell, International WaterCentre, Griffith University, Manohara Khadka, International Water Management Institute, Alison Baker, Water for Women & Peta Mills, DFAT Menstrual Health: Progress in the East Asia and Pacific Region Alexandra Head, Burnet Institute Tackling period poverty in the Pacific: Findings from the Pacific Menstrual Health Network's practice and evidence generation Chelsea Huggett, WaterAid Transformation Towards Inclusive and Resilient Menstrual Health Hygiene Services Proshanto Roy, World Vision International Menstrual health, stigma, and WASH facility access in Tuvalu and PNG Kate Walton, Asian Development Bank Understanding MHM through participatory approaches in Papua New Guinea Francis Wele, Plan International Pacific Evaluation of a menstrual hygiene management intervention among female RMG workers in urban Bangladesh: A pilot study FarhanaSultana, icddr,b Strategies to Advocate Menstrual Health and Hygiene among students with disabilities in Eastern Indonesia Novika Noerdiyanti & Nky Nitbani, Plan Indonesia Reusable period care products: Resolving menstrual health and hygiene challenges in remote communities Minnie King, The University of Queensland	F. Strengthening enabling environments F4: Building Governance Systems for Climate Resilient water management, water supply and sanitation P11 Geoff Wilson, Asian Development Bank, Simon Tilleard, Alluvium, Sarah Ransom, Australian Water Partnership & Marcus Howard, Consultant Sub-national government leadership for sanitation: lessons from ongoing participatory research Ruhil Iyer, Sanitation Learning Hub, Institute of Development Studies Strengthening WASH systems with partnerships between WASH and gender equality organisations in Timor-Leste Livia Da Costa, WaterAid Timor-Leste Inspiring local leadership to accelerate district-wide Open Defecation Free (ODF) Sokha Mok, WaterAid Cambodia Who is critical to water and WASH systems? Fraser Goff, WaterAid Australia 7 practical system strengthening lessons for sustainable and inclusive WASH Sokha Mok & Doernun Ton, WaterAid Cambodia
1530-1600	Afternoon Tea Break					
1600-1715	Closing Plenary					
1830 - 2130	Conference Dinner					

WEDNESDAY			
Room	Duration / Timing	Title	Organisations
ROOM A	Half Day (AM)	Starting with ourselves, teams and organisations - Assessing transformation in WASH	Water for Women, SNV Netherlands Development Organisation, CBM Global Inclusion Advisory Group, Sanitation Learning Hub
ROOM A	Half Day (PM)	Improving disability rights outcomes in WASH system strengthening	CBM Global's Inclusion Advisory Group (Australia), WaterAid Australia, SNV Netherlands Development Organisation, World Vision Bangladesh, World Vision Vanuatu, Water for Women
ROOM B	Full Day	Unpacking the realities of behaviour change interventions at scale	SNV Netherlands Development Organisation; International WaterCentre, London School Hygiene and Tropical Medicine, Upward Spiral
ROOM C	Full Day	Assessment and Mitigation of Greenhouse Gas Emissions from Sanitation Systems - an Introduction	University of Leeds, University of Bristol, Institute for Sustainable Futures-UTS
ROOM D	Half Day (AM)	Nature-based solutions for water security and WASH	International WaterCentre, Australian Rivers Institute (Griffith University), Institute for Sustainable Futures-UTS, WaterAid, Water for Women
ROOM D	Half Day (PM)	Advancing Systems Health approaches to achieve WASH and conservation goals	Wildlife Conservation Society, University of Sydney, Edith Cowan University, Fiji Centre for Communicable Disease Control, Fiji National University, WaterAid, University of Queensland
ROOM E	Full Day	Incorporating circular economy and resilience principles in the water sector	World Bank
ROOM F	Full Day	Unpacking measurements to water security, equity and use by all	SNV Netherlands Development Organisation

THURSDAY			
Room	Duration	Title	Champion/Organisation
ROOM A	Half Day (AM)	Pacific Feminist Movements : Sharing Lessons for Gender-Just Water and WASH Futures	Diverse Voices and Action (DIVA) for Equality, Soqosoqo Vakamarama i Taukei, Action Aid Vanuatu, Shifting the Power Coalition, Wateraid Australia, Qaqa Grassroots Young Feminist Network, Pacific Feminist Community of Practice
ROOM A	Half Day (PM)	WASH-GEM: A novel tool for measuring gender equality through WASH	Institute for Sustainable Futures-UTS, SNV Netherlands Development Organisation, IDE
ROOM B	Half Day (AM)	Shifting social norms for inclusive, resilient and sustainable behaviour change	Water for Women, Institute for Sustainable Futures, CBM Consulting, WaterAid Australia
ROOM B	1.5 Days (continued Friday)	Wash'Em - Improving Handwashing Programs in Humanitarian Crises	The Centre for Affordable Water and Sanitation Technology (CAWST)
ROOM C	Full Day	Sub-national government leadership for sanitation: how to support this better?	Sanitation Learning Hub - Institute of Development Studies, WaterAid Australia
ROOM D	Full Day	Understanding climate challenges now: Risk, vulnerability and resilience assessments	Institute for Sustainable Futures-UTS, International WaterCentre/Griffith University, SNV Netherlands Development Organisation, WaterAid, Plan International, International Rescue Committee (IRC), UNICEF, Water for Women
ROOM E	Full Day	Professionalising rural water supplies - sharing lessons and strategies across regions	Aguaconsult, International WaterCentre (Griffith University)
ROOM F	Half Day (AM)	Monitoring climate risks, climate resilient WASH services and community resilience: are we ready?	Institute for Sustainable Futures-UTS, UNICEF, Joint Monitoring Programme, Bristol University, International WaterCentre, WaterAid, Water for Women
ROOM F	Half Day (PM)	Climate financing for resilient WASH: Challenges and opportunities	WaterAid, IDE, RTI, IRC, Institute for Sustainable Futures-UTS, Water for Women
TRAINING DINNER			

FRIDAY			
Room	Duration	Title	Champion/Organisation
ROOM A	Full Day	Voices at the table	Edge Effect & Yayasan Plan International Indonesia
ROOM B	1.5 Days (continued from Thursday)	Wash'Em - Improving Handwashing Programs in Humanitarian Crises	The Centre for Affordable Water and Sanitation Technology and The Environment & Public Health Organization in Nepal (ENPHO)
ROOM C	Half Day	Good Enough Guide to On-Site Sanitation in the Pacific	Asian Development Bank
ROOM D	Full Day	Flood risk reduction through hazard information, resilience measures and collaborative teams	International WaterCentre (Griffith University), The Pacific Community (SPC)
ROOM E	3/4 Day	The Drivers, Triggers and Factors to Accelerate Government Led Monitoring - An orientation to Papua New Guinea's National WASH Monitoring and Planning system	WaterAid Australia & WaterAid PNG
ROOM F	Half Day	WRM-WASH: A framework towards stronger cooperation	UNICEF, SIWI
